

Procedure Competency Assessment Tool – Implantable Contraception

Provider: _____

Date: _____

Procedure: ☐ 11981 Insertion ☐ 11982 Removal ☐ 11983 Removal/Re-insertion

Device: ☐ J7307 Etonogestrel implant system

How many of this procedure have you completed thus far? _____

Please circle the descriptor corresponding to the candidate's performance in each category, **irrespective of the training level.**

Indication/Informed Consent:

Novice		Competent		Expert
Not sure of the patient's history, context of the procedure, or has knowledge gaps in procedure contraindications or potential complications		Understands the general indications, contraindications, potential complications, and clinical value of procedure; able to explain to patient		Clearly articulates the clinical value, potential complications, and alternatives to patient; accurately answers all patient questions to obtain informed consent

Knowledge of Specific Procedure:

Novice		Competent		Expert
Deficient knowledge; unable to articulate procedure steps		Able to articulate all important steps of procedure		Demonstrates familiarity with all aspects of procedure

Procedure Setup:

Novice		Competent		Expert
Does not gather required supplies, poor patient positioning, poor sterile technique, or does not properly identify landmarks		Gathers key instruments and supplies; properly positions patient; identifies landmarks and needle entry site; maintains sterile technique		Anticipates supplies needed for unexpected complications; ergonomic setup of all instruments and supplies

Local Anesthesia:

Novice		Competent		Expert
Requires guidance with local anesthesia to ensure insertion site is adequately numb		Performs field block without guidance and with good anesthesia		Smoothly and efficiently performs field block without guidance and with good anesthesia

Procedure Flow and Efficiency:

Novice		Competent		Expert
Frequently stops procedure and seems unsure of next move, or needs guidance to properly deploy or extract implant		Demonstrates some forward planning with reasonable progression of procedure; properly inserts and/or removes implant without guidance		Obviously plans course of procedure with effortless flow from one move to the next; high economy of movement and maximum efficiency

Procedure Competency Assessment Tool – Implantable Contraception

Respect for Tissue:

Novice		Competent		Expert
Uses unnecessary force, or causes damage by inappropriate use of instruments		Careful handling of tissue without excess force		Consistently handles tissue adeptly and appropriately with minimal damage

Instrument Handling:

Novice		Competent		Expert
Repeatedly makes tentative or awkward moves with instruments by inappropriate use of instruments		Competent use of instruments, but occasionally appears stiff, awkward, or uncertain		Fluid moves with instruments and no awkwardness; comfortable with application and extraction

Management of Complications: [] Not Applicable

Novice		Competent		Expert
Does not recognize or appropriately address developing complication; does not appropriately halt procedure with failed attempts		Recognizes and appropriately addresses developing complication; halts the procedure appropriately		Immediately recognizes developing complication; manages with precise direction and without hesitation

Overall on this task did the provider demonstrate competency to perform this procedure independently?

Yes _____ **No** _____
