Procedure Competency Assessment Tool – Bartholin's Cyst Management (Marsupialization)

Provider: _____   Date: _____

Procedure: [ ] 56440 Marsupialization of Bartholin's Cyst   [ ] Other: _____

How many of this procedure have you completed thus far? _____

Please circle the descriptor corresponding to the candidate's performance in each category, **irrespective of the training level.**

Indication/Informed Consent:

Novice		Competent		Expert
Not sure of the patient's history, context of the procedure, or has knowledge gaps in procedure contraindications or potential complications		Understands the general indications, contraindications, potential complications, and clinical value of procedure; able to explain to patient		Clearly articulates the clinical value, potential complications, and alternatives to patient; able to accurately answer all patient questions to obtain informed consent

Knowledge of Specific Procedure:

Novice		Competent		Expert
Deficient knowledge; unable to articulate procedure steps		Able to articulate all important steps of procedure		Demonstrates familiarity with all aspects of procedure

Procedure Setup:

Novice		Competent		Expert
Does not gather required supplies, poor patient positioning, poor sterile technique, or does not properly identify landmarks		Gathers key instruments and supplies; properly positions patient; identifies landmarks; maintains sterile technique		Anticipates supplies needed for unexpected complications; ergonomic setup of all instruments and supplies

Anesthesia:

Novice		Competent		Expert
Requires guidance to provide adequate block over Bartholin's cyst		Performs field block over cyst without guidance and with good anesthesia		Smoothly and efficiently performs field block over cyst without guidance and with good anesthesia

Procedure Flow and Efficiency:

Novice		Competent		Expert
Frequently stops procedure and seems unsure of next move; many unnecessary moves		Demonstrates some forward planning with reasonable progression of procedure; efficient time/motion but some unnecessary moves		Obviously plans course of procedure with effortless flow from one move to the next; high economy of movement

Procedure Competency Assessment Tool – Bartholin's Cyst Management (Marsupialization)

Incision/Dissection/Respect for Tissue:

Novice		Competent		Expert
Inadequate incision size or depth, poor dissection, uses inappropriate force, or causes damage by inappropriate use of instruments		Adequate incision and tissue dissection; careful handling of tissue using appropriate force		Precise incision; meticulous but efficient dissection; consistently handles tissue adeptly and appropriately with minimal damage

Instrument Handling:

Novice		Competent		Expert
Repeatedly makes tentative or awkward moves with instruments by inappropriate use of instruments		Competent use of instruments but occasionally appears stiff, awkward, or uncertain		Fluid moves with instruments without awkwardness; comfortable with application and extraction

Marsupialization:

Novice		Competent		Expert
Unsure of method, or requires guidance in suture selection or placement		Appropriate suture selection; correct placement; effective marsupialization of cyst wall to vaginal mucosa		Accurate, smooth, and efficient marsupialization with excellent tissue approximation and cosmesis

Patient Comfort:

Novice		Competent		Expert
Unresponsive to patient discomfort; does not seek patient feedback regarding comfort		Seeks patient feedback; recognizes patient discomfort; alters technique as needed to reduce discomfort		Anticipates sources of discomfort and eliminates them to ensure maximal comfort

Management of Complications: [ ] Not Applicable

Novice		Competent		Expert
Does not recognize or appropriately address developing complication		Recognizes and appropriately addresses developing complication		Immediately recognizes developing complication; manages with precise direction and without hesitation

Overall on this task did the provider demonstrate competency to perform this procedure independently?

Yes _____   No _____
