

Assess your current partnerships worksheet

Tasks: (1) Individual question reflection time. (2) Break up into groups to discuss and brainstorm next steps

Reflection Questions:

1. Does your local CME (continuing medical education) work involve NPCs (non-physician clinicians)?
2. Do you or your sending organization/institution have the capacity to expand CME to NPCs?
3. Team-based care culture - learning from everyone, speak up if you see something, etc. is culturally dependent. What has your experience with this been?

Brainstorm Questions:

4. What strategies have worked to encourage quality improvement?
5. What strategies have worked to establish longitudinal curricula in CME?
6. How can we model team-based care? Is it culturally appropriate to do so?

Current activities
What type of program are you currently involved with? Describe it in 2 sentences.
Are you currently involved with local CME? If yes, Describe it in 1-2 sentences. If no, Describe your current activities in 1-2 sentences.
Who are the local clinicians that you work with? List the individuals or training levels of clinicians.

Who are you in **regular** contact with now?

Are your contacts **central** at a referral center or **peripheral/rural**?

Who can you get in contact with? (Resources)

Who would you like to get in contact with? (Wishlist)

My current clinical contacts/partners:

Contact Name	Training level	Regular contact (√)	Central (√)	Peripheral/rural (√)
