

Procedure Competency Assessment Tool – Intrauterine Device

Provider: _____

Date: _____

Procedure: ☐ 58300 IUD Insertion ☐ 58301 IUD Removal

Device: ☐ J7300 Copper IUD ☐ J7302 Levonorgestrel-releasing IUD

How many of this procedure have you completed thus far? _____

Circle the descriptor corresponding to the candidate's performance in each category, **irrespective of the training level.**

Indication/Informed Consent:

Novice		Competent		Expert
Not sure of the patient's history, context of the procedure, or has knowledge gaps in procedure contraindications or potential complications		Understands the general indications, contraindications, potential complications, and clinical value of procedure; able to explain to patient		Clearly articulates the clinical value, potential complications, and alternatives to patient; accurately answers all patient questions to obtain informed consent

Knowledge of Specific Procedure:

Novice		Competent		Expert
Deficient knowledge; unable to articulate procedure steps		Able to articulate all important steps of procedure		Demonstrates familiarity with all aspects of procedure

Procedure Setup:

Novice		Competent		Expert
Does not gather required supplies, poor patient positioning, poor sterile technique, or does not properly identify landmarks		Gathers key instruments and supplies; properly positions patient; maintains sterile technique		Anticipates supplies needed for unexpected complications; ergonomic setup of all instruments and supplies

Procedure Flow and Efficiency:

Novice		Competent		Expert
Frequently stops procedure and seems unsure of next move, or many unnecessary moves		Demonstrates some forward planning with reasonable progression of procedure; efficient time/motion but some unnecessary moves		Obviously plans course of procedure with effortless flow from one move to the next; high economy of movement

Respect for Tissue:

Novice		Competent		Expert
Uses unnecessary force on the cervix or uterus, or causes damage by inappropriate use of instruments		Careful handling of cervix and uterus without excessive force		Consistently handles cervix and uterus adeptly and appropriately with minimal damage

Procedure Competency Assessment Tool – Intrauterine Device

Patient Comfort:

Novice		Competent		Expert
Unresponsive to patient discomfort; does not seek patient feedback regarding comfort		Seeks patient feedback; recognizes patient discomfort; alters technique as needed to reduce discomfort		Anticipates sources of discomfort and eliminates them to ensure maximal comfort

Instrument Handling:

Novice		Competent		Expert
Repeatedly makes tentative or awkward moves with instruments by inappropriate use of instruments		Competent use of instruments, but occasionally appears stiff, awkward, or uncertain		Fluid moves with instruments and no awkwardness; comfortable with application and extraction

Management of Complications: [] Not Applicable

Novice		Competent		Expert
Does not recognize or appropriately address developing complication; does not appropriately halt procedure with failed attempts		Recognizes and appropriately addresses developing complication; halts the procedure appropriately		Immediately recognizes developing complication; manages with precise direction and without hesitation

Overall on this task did the provider demonstrate competency to perform this procedure independently?

Yes _____ No _____
