BROWN UNIVERSITY
School of Medicine

December 31, 1996

Anwar Batieha, M.D., M.P.H., Dr.PH
Head, Department of Community Medicine
Jordan University of Science and Technology
Irbid, Jordan

Dear Dr. Batieha,

Dr. Reichel is on vacation, so I am responding to your letter of December 24. I am sending the following list of resource materials which I believe have been sent in the past to Dr. Hashem Jaddou. They include:

1. Medical office equipment and supplies
2. Educational materials/technology for family medicine residency training
3. List of suggested books, audiovisuals, journals and other publications.
 - a. Most basic priorities for health centers
 - b. Priorities for health centers
 - c. Jordan family practice specialty training-for medical school libraries, etc.
4. Inventory of materials collected for Jordan project

After you review these lists, please let me know if you would like any specific information or follow-up. Please keep in mind the importance of upgrading each of the sites where residents will be trained. Also, we can review your further concerns during my next visit to Jordan or when you visit us at Brown. At that time, we can also review relevant video tapes.

I have not forgotten the proposed trip to Brown for you and Dr. Mohammed Jalal Hussain. Our faculty felt that any time after early February would be fine. Evaluations from past participants indicate that ten days is about the appropriate amount of time, equivalent to seven to eight working days. I would like to suggest that you come some time between March 10 and April 6 because Dr. Iyad Husein will be taking an elective during that period and would, thus, be available to spend considerable time with you. We have to keep in mind the proposed ALSO Course which, most likely, will be offered in Jordan in late March. One possibility is that you could come around Saturday, March 8th and stay until around March 19th. Please let me know your thoughts on this matter. If these dates are not appropriate perhaps you would prefer to come in April or May.

By now, I believe that you are aware of USAID approval for the impressive list of educational materials which you prepared for the residency program at J.U.S.T. I was delighted to hear that Dr. Mohammed Shaltaf has returned and am enthusiastic about your forthcoming visit. Also, it

DEPARTMENT OF FAMILY MEDICINE

111 Brewster Street
Pawtucket, Rhode Island 02860 (401)729-2213 / Fax:(401)729-2923

will give you and Dr. Hussain an opportunity to work closely with Dr. Iyad al-Husein and, thus, plan for the finishing touches on the residency program.

Best wishes for the new year. May it be marked by a little more peace and love throughout the world.

Sincerely,

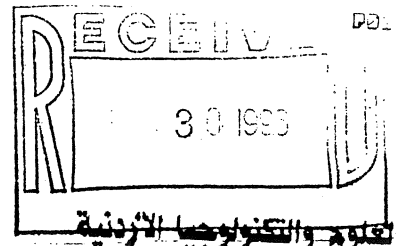

A handwritten signature in cursive script, appearing to read "Vincent R. Hunt".

Vincent R. Hunt, M.D., Professor and Chairman
Department of Family Medicine
Brown University/Memorial Hospital of Rhode Island

Section

Dr. William Reichel, M.D.
Dept. of Family Medicine,
Memorial Hospital-Rhode Island
Brown University - School of Medicine,

Dear Dr. Reichel,

Thank you for your letter dated Dec. 2nd, 1996, in which you expressed your willingness for help & assistance to the family medicine programme. You indicated that you have compiled a list of resources (but this was not included). We would like to view such a list to determine our needs. I believe that practice Journals may be helpful with pre & post study MCQs.; any such Journals in internal medicine, Gyn., paediatrics etc. would be very useful. If you have video tapes we would like to see such tapes which I believe would benefit our students. I wish to mention that over a week ago we sent you a fax regarding some equipments we selected for your approval, but still awaiting your response. We are sorry because of the difficulty in reaching Dr Hussain and we don't know why. Please contact Dr Hussain on his private Address:
Dr Mohammad Jalal Hussain
P.O. Box 851756, Sweifiyeh,
Amman - Area Code 11185
Jordan.

Best regards.

Sincerely,

Anwar Batieha
Anwar Batieha, MD, MPH, DrPH
Head, Dept. of Community Medicine, JUST
Irbid, Jordan.

(Is the trip by Dr. Anwar & Dr. Hussain to visit your hospitals & University as proposed by Professor Hunt's last trip to Jordan still on? if so, do you have any preferable time for such a visit & what arrangements need to be made etc.
Please accept our greetings for the new year from all of us to all of you.

MEDICAL OFFICE EQUIPMENT AND SUPPLIES

Business Office

- Clinical record system
 - Charts
 - Chart racks
- Clock
- Computer
 - Accounting
 - Patient scheduling
 - Billing
- Copier
- Desk(s)
- Dictating equipment
- File cabinets
 - Regular files
 - Fire/theft-proof storage
- Lamps
- Reference books
 - Medical dictionary
 - Procedure coding book
- Side chair(s)
- Telephone
- Trash can
- Typewriter
 - Dictator
 - Transcriber
- Paper and office supplies
 - Copier paper
 - Paper clips
 - Pens
 - Etc.

Nursing Station (need only one of each item for whole office)

- Hearing testing/Ear assessment
 - Audiometer
 - Tympanometer
- OB assessment
 - Doppler fetal pulse detector
 - EDC calculator wheels
- Paper and forms
 - Pediatric growth charts
 - Supplies for medical records
 - Other forms as necessary
- Pulmonary function testing
 - Peak flow meter
 - Spirometer
- Scale(s)
 - Adult scale/height measurer
 - Pediatric scale/length measurer
- Telephone
- Thermometer
- Vision testing
 - Ishihara color vision test book
 - Snellen chart
- Waste receptacles
 - Needle/medical waste disposal container
 - Trash can

Examination Room (for each room)

- Clinical supplies
 - Adhesive tape
 - Alcohol swabs
 - Bandages
 - Cotton balls
 - Cotton-tipped applicators
 - Culture equipment
 - Chlamydia
 - Culturette for most bacteria
 - GC
 - Herpes
 - Gauze
 - Gloves
 - Hemocult cards
 - Lubricant
 - Saline and KOH
 - Slides
 - Syringes and needles
 - Table paper
 - Tongue depressors
- Diaphragm fitting rings
- Exam table
- Gooseneck lamp
- Kleenex
- Linen
 - Exam gowns
 - Sheets
 - Pillow
- Measuring tape
- Mirrors
 - Wall mount
 - Hand
- Ophthalmoscope
- Otoscope
- Peak Flow Meter
- Pictures/decorations
- Reflex hammer
- Side chair
- Sink
 - Soap dispenser
 - Paper towels
- Sphygmomanometer
- Stool
- Storage cabinet with counter top
- Tuning fork(s)
- Waste receptacles
 - Needle/medical waste disposal container
 - Trash can

Treatment Room (Minor Surgery)

Same as exam rooms plus the following:

- Casting equipment
 - Cast cutter
 - Cast spreader
 - Plaster, padding, and stockinette
- Cautery
- Crash cart w/ CPR supplies and drugs
- Cryosurgery set-up
- EKG machine
- Eye tray
 - Fluorescein strips
 - Topical antibiotic ointment
 - Eye pads
- ENT tray
 - Head light
 - Long forceps
 - Ear syringe and/or Water Pik™
 - Cerumen curette
- Foley catheters
- GI visualization
 - Anoscope
 - Flexible (or rigid) sigmoidoscope
- Mayo stand
- Oxygen
 - Tank and stand
 - Tubing
 - Mask and/or nasal prongs
- Suction machine
- Surgical instruments
 - Suture sets
 - Needle holder
 - Forceps
 - Scissors
 - Hemostat
 - Gyn set-up
 - Uterine sound
 - Tenaculum
 - Ring forceps
- Minor surgery equipment
 - Scalpels
 - Skin biopsy punches
 - Ring cutter
 - Staple remover
- UV light

Laboratory/Central Support Office

- Alcohol lamp
- Autoclave
- Centrifuge
 - Urine
 - Blood samples
 - Hematocrit
- Gloves
- Microscope
- Paper and forms
 - Lab test requisition forms
 - Report forms
- Refrigerator and freezer
 - Vaccines
- Storage cabinets
- Supplies
 - Hemoglobinometer
 - Pregnancy test kits
 - Rapid strep test kits
 - Urine dip stick test strips
- Telephone
- Waste receptacles
 - Needle/medical waste disposal container
 - Trash can

**Educational Materials/Technology
for Family Medicine Residency Training**

1. Video camera, T.V. Monitor, and video tapes
2. Overhead projector
3. Slide projector and camera equipment to make slides
4. Erasable marker board with marking pens
5. Procedure Models (plastic) to demonstrate such things as flexible sigmoidoscopy, nasopharyngoscope, etc.
6. Printed guidelines for patient care of the most common problems seen in Family Medicine (i.e. diabetes, hypertension, depression etc.)
7. Protocols and videos on how to do the most common procedures done in Family Medicine such as Pap Smear, Colposcopy etc.
8. Flexible Sigmoidoscope with a camera to display on T.V. monitor
9. Microscopes with teaching heads
10. Basic textbooks and journals
11. Computer with the following capabilities:
 - a. CD-ROM
 - b. Video Camera/sound for sending and receiving pictures for teleconferencing and distance education
 - c. modem
 - d. e-mail
 - e. World Wide Web program for hypertext
